

Criminal Investigation Division Job Description

Job Overview

The Lyford Police Department is seeking a highly skilled and motivated Police Investigator to join our team. This position offers an exciting opportunity for an individual who is committed to making a positive impact in the community by helping to solve complex and challenging cases. As a Police Investigator (Detective), you will play a critical role in conducting thorough investigations, gathering and analyzing evidence, and supporting the prosecution of criminal cases.

Key responsibilities include collaborating with other law enforcement professionals to solve a wide variety of crimes, utilizing advanced investigative techniques, and demonstrating strong analytical skills to make inferences about suspects and motives. The Police Investigator will be responsible for interviewing witnesses and potential suspects, documenting statements, and preparing comprehensive investigative reports to be included in case files. The position also requires maintaining the chain of custody for all evidence collected and testifying in court as needed.

Ideal candidates should possess excellent communication skills, attention to detail, and a strong sense of integrity and professionalism. Prior experience in law enforcement and criminal investigations is highly desirable. If you are passionate about serving your community and have a drive to pursue justice, we encourage you to apply and become an integral part of the Lyford Police Department's investigative team.
